

What my number looks like  
(Draw the right number of objects)

What makes  
the number?  
(use part-part  
whole board  
and record  
here)

What  
makes the  
number on  
a tens  
frame?

Tell an oral story for the  
number (teacher can record)

Three tens frames are arranged in a row. Each tens frame is a rectangle divided into two columns and five rows, totaling ten cells. The first frame on the left is empty. The middle frame is also empty. The third frame on the right is also empty.

A horizontal tens frame consisting of two rows and five columns, totaling ten cells. The top row has five cells and the bottom row has five cells. The frame is empty.
